

Friday 6<sup>th</sup> January 2017

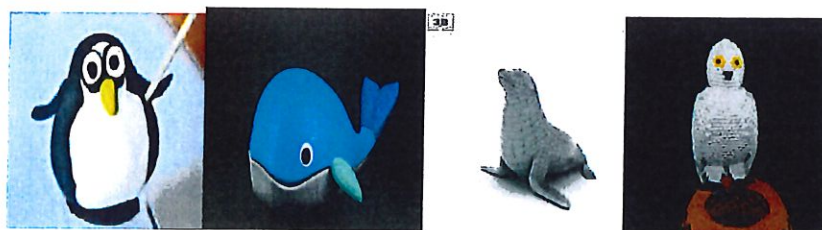

Dear Parents/Carers,

This term, we will be learning about the Arctic and Antarctica; exploring the animals found in these 2 continents. The children in Reception will be visiting Marwell Zoo to observe penguins and we will all be exploring what conditions are like for these wild animals.

For the children's home learning project, we would like to create a collection of animals living in these continents within the Early Year's corridor. This means, we would like children to work with their parents/carers to produce a 3D animal from one of these continents. These could be produced as a collage, a model, papier-mache or a sculpture. The following animals live in these continents.

Arctic	Antarctica
Reindeer	Penguins
Polar Bears	Whales
Arctic fox	Albatrosses
Narwhal	Seals
Walrus	
Seal	
Moose	
Orca	
Snowy Owl	

Here are a few ideas...

Please bring your child's finished Arctic animal into school on, or before, Wednesday 25<sup>th</sup> January 2017. We will display all of the work in the Early Year's Unit so that we can celebrate each other's work. We would like to thank you for supporting your child's learning and we look forward to seeing the final products.

Yours sincerely,  
Mrs E Hogan

Assistant Headteacher.
